Key findings

- Revenue grew 14.6% (R3.05m to R3.50m), but net profit fell 42% (R310K to R180K).
- Operating expenses rose 27%, almost twice as fast as revenue. Salaries and marketing grew fastest, and rent rose 10%.
- Net margin halved from 10.2% to 5.1%, and gross margin slipped from 46.3% to 45.1% as supplier costs crept up.

Recommendation

Review supplier pricing, and tie any new hiring and marketing spend to sales growth before adding more. Aim to bring expenses back to about 36% of revenue, where they were in 2024.
